PRELIMINARY AMENDMENT

Technology Center 2600

Sir:

Prior to examination on the merits, please amend the above-identified application as follows:

IN THE CLAIMS:

Please add Claims 41-57 to read as follows:

41. (New) A method of processing image data defining a plurality of images of a subject object recorded at different positions relative thereto and data defining the relative positions of the images, to generate data defining a three-dimensional computer surface shape model of the subject object and texture maps defining texture data for the surface shape model, the method being performed in a processing apparatus and comprising:

processing the image data and the data defining the relative positions to
